

**MID-KAWEAH GROUNDWATER SUB-BASIN JOINT POWERS AUTHORITY
GROUNDWATER SUSTAINABILITY AGENCY BOARD**

SUMMARY MINUTES

February 12, 2019 – 3:00 p.m.

Tulare Public Library & Council Chambers
491 North M Street – Tulare, CA 93274

MEMBERS PRESENT: Dennis Mederos, Dave Martin, Steve Nelsen

ALTERNATES PRESENT: Jim Pennington, Leslie Caviglia, Aaron Fukuda

STAFF PRESENT: Paul Hendrix, Randy Groom, Kathi Artis, Rob Hunt, Trisha Whitfield, Roxanne Yoder, Valerie Kincaid

OTHERS PRESENT: Craig Moyle, Stantec; B. Wilbur, Advisory Committee Chair; other members of the public.

1. CALL TO ORDER REGULAR SESSION:

Chair Nelsen opened the meeting at 3:01 p.m.

2. PUBLIC COMMENT:

Chair Nelsen called for comments from any members of the public present at the meeting. None were forthcoming.

3. CLOSED SESSION

a. Gov't. Code §54956.9

Conference with Legal Counsel – Anticipated Litigation

Chair Nelsen convened closed session at 3:02 p.m. He reconvened to regular session at 4:21 p.m. and advised there were no reportable actions taken in closed session.

4. GENERAL BUSINESS

a. Approval of Minutes of Regular Meeting on December 11, 2018

It was moved by Alt. Director Caviglia, seconded by Alt. Director Fukuda and unanimously carried, to approve the minutes of December 11, 2018, as presented.

b. Financial Report*

i. Financial Statements – Year-to-Date

K. Artis provided a report for the Board's review and consideration. She noted cash on hand of \$48,000 and highlighted other line items in the Balance Sheet. She added that the Profit & Loss Statement now includes the fiscal year budget figures for comparison. Following discussion, it was moved by Director Martin, seconded by Director Mederos and unanimously carried, to approve the report as presented.

- ii. **Call for Funds**
P. Hendrix indicated that a call for Member contributions will likely be sought at the next GSA board meeting.
- c. **Legal Counsel Report**
 - i. **GSA's and Potential Legal Challenges**
V. Kincaid provided an update to the Board for review and comment. She discussed how GSA's may be subject to legal challenges as they take steps to adopt a GSP.
 - ii. **Kaweah Sub-Basin Coordination Agreement – Status**
V. Kincaid indicated that an outline of a Coordination Agreement among the three sub-basin GSA's is being circulated among the respective legal counsel, and that a draft Agreement would be under review within the next two months.
- d. **Kaweah Sub-Basin Coordination – Status Report**
 - i. **Basin Setting**
P. Hendrix provided a PowerPoint slide presentation for the Board's review and consideration. He made mention of the revisions to be made to the draft Basin Setting document to be undertaken soon by GEI/GSI.
 - ii. **GSA Water Budgets**
P. Hendrix continued with a presentation on the sub-basin groundwater budget and the agreed-to methodology to be used to parse the budget into three separate GSA budgets, one each for Greater Kaweah, East Kaweah and Mid-Kaweah. Alt. Director Pennington asked if staff has any sense of the implications on Mid-Kaweah of this parsing exercise, to which Mr. Hendrix indicated that some early analyses have been made in this regard. Mr. Hendrix added that the technical sub-basin representatives are recommending that the historical period 1997-2017 be utilized to describe the current conditions in regards to the water budget.
 - iii. **Financial Budget – Status**
P. Hendrix indicated that the preparation of the Basin Setting document has taken longer to complete and has cost more than anticipated due to the numerous local reviewers and consultant technicians involved. The three sub-basin GSA's share equally in the effort and are exploring the means by which to address the increased costs. He noted that the Prop 1 grant will fully cover the cost, but less will be available from the grant for GSP preparations as a result.
- e. **GSP Development – Status Report**
 - i. **Projects & Management Actions**
P. Hendrix reviewed the collection of Projects and Management Actions that are being included in the GSP. He described the various types of recharge projects, surface storage projects as well as management actions including pumping allocations. He then summarized the other elements of this chapter, which include an implementation plan and Project benefits analysis.
 - ii. **Sustainable Management Criteria**
P. Hendrix continued with a visual presentation of the conceptual approach in setting Minimum Thresholds and Measurable Objectives. He called attention to the differing glide paths to 2040 which would be depicted in setting Objectives for water storage v. water levels.

f. Advisory Committee – Activity Report

i. Resignation – I. Lemons

P. Hendrix referred to the staff report identifying the three applicants for the Committee seat recently left vacant. Alt. Director Caviglia expressed her interest in urging more urban city dwellers to apply for the vacancy; Directors Martin and Mederos suggested that more individuals from the rural and agricultural community should apply. Director Nelsen invited public comment, and E. Henry stated that the affiliations of each member of the Committee need consistency as depicted on the GSA website. It was moved by Alt. Director Pennington, seconded by Alt. Director Caviglia and unanimously carried, to accept the report and to re-advertise the vacancies to solicit additional applicants.

ii. Outreach Presentation Schedule

C. Moyle next gave a presentation on current public outreach activities. He outlined the GSA speakers bureau schedule of confirmed meetings and those being planned. He also outlined the intent to stage at least two large-scale public meetings centered on residents of Tulare and Visalia, and a joint meeting for landowners within TID and western region of the Greater Kaweah GSA.

iii. Groundwater Communications Portal

C. Moyle demonstrated the sub-basin’s Groundwater Communications Portal accessible on the Internet as well as its capabilities. V. Kincaid said this tool could be useful in collecting and managing comments that are forthcoming on the public draft of the GSP; P. Hendrix noted that the Portal could also be useful as GSAs proceed into the implementation phase of SGMA compliance.

iv. Sub-Basin Sustainability Goal and Undesirable Results

B. Wilbur provided a report on the Advisory Committee’s deliberations on language to define the sub-basin Sustainability Goal and Undesirable Results. He noted that the key topics that the Committee has been dealing with were water level trends, subsidence and water quality. He further indicated that the Committee, at its last meeting, voted unanimously to accept the language as attached in the staff report. V. Kincaid noted that GSAs are all working to strike a balance between a “do no harm” approach to groundwater quality v. aspirational goals to improve it. Director Martin added that there are water quality benefits of adding more water to the aquifer via recharge projects.

g. Board Meeting Frequency

P. Hendrix brought to the Board’s attention the recent discussions concerning meeting frequency and whether the decision to continue to meet on a bi-monthly basis should be revisited. Discussion ensued among the Board, and Director Nelsen indicated his desire to keep the bi-monthly schedule with special meetings as needed and Director Mederos seeing the need for regularly scheduled meetings once a month. At the conclusion of the discussion, it was moved by D. Mederos, seconded by J. Pennington and unanimously carried, to schedule monthly meetings on the second Tuesday of each month at three o’clock in the afternoon, subject to cancellation.

5. BOARD/STAFF UPDATES, FUTURE AGENDA ITEMS OR OTHER TOPICS OF INTEREST

P. Hendrix commented on a recent state legislative bill, AB 417 by Assembly Member Arambula. He noted that the bill has been formulated largely by the Calif. State Farm Bureau and its focus is on the upcoming economic impacts of SGMA on agriculture and rural communities. Director Mederos made mention of his attendance at the World Ag Expo and presentation by NASA on advances being made in monitoring snow levels in the Sierra Nevada mountain range.

6. ADJOURNMENT: Next Regular Meeting – March 12, 2019

Chair Nelsen adjourned the meeting at 6:04 p.m.

Groundwater Sustainability Agency
Board Chair

Attest:

Mid-Kaweah GSA
Agenda Item Report

March 7, 2019

Agenda Item 4.b.ii: Member Call for Funds

Report Author: Paul Hendrix

Staff Recommendation:

It is recommended that the Board approve a second call for funds for FY 2018-19 in the amount of \$175,000, one-third of which from each Member.

Background Discussion:

Work continues on sub-basin coordination and GSP preparation, and the GSA cash reserves must be supplemented to cover consultant as well as ongoing administrative expenses. Preparations are underway to seek a reimbursement – up to the full \$1.5 million less retention – from DWR for these costs, and as soon as a detailed expense breakout is received from the East Kaweah GSA for its costs is in hand, the reimbursement submittal may proceed.

In the interim, an amount of \$175,000 is needed from the three Members collectively, some of which will be later reimbursed by either DWR as a grant payment or by the other two GSAs if grant funds are delayed.

Recommended Motion:

I move to approve a Mid-Kaweah GSA call for funds in the amount of \$175,000.

Mid-Kaweah GSA
Agenda Item Report

March 7, 2019

Agenda Item 4.d.i: Meetings with DWR re SGMA Funding

Report Author: J. Paul Hendrix

Background Discussion:

The three local sub-basin GSAs have been discussing the need for additional planning funding from state bond programs. In addition, meetings are being held between southern San Joaquin Valley GSAs and DWR officials regarding progress towards GSP completion and issues that have surfaced along the way. The attached letter from the three local GSAs has been prepared for submittal to DWR setting the stage for another meeting to discuss increased access to Prop 68 funds for GSP development.

Attachments:

Kaweah Sub-Basin Letter to DWR

March 4, 2019

TO: Kris Tjernell and Taryn Ravazzini, DWR
kristopher.tjernell@water.ca.gov
taryn.ravazzini@water.ca.gov

Subject: Meeting Request to discuss Required Groundwater Sustainability Planning Investment Required in the Kaweah Subbasin

Dear Kris and Taryn:

Groundwater Sustainability Agencies (GSA) in the Kaweah Subbasin are in the process of developing Groundwater Sustainability Plans (GSP) for submitting to DWR by January 31, 2020. The purpose of this letter is to alert you to the urgent need for additional funding to complete our GSPs and request a meeting with you as soon as possible to explore the possibility of additional funding through Proposition 68 or other DWR administered funding programs.

In 2017, the three GSAs in the subbasin were awarded \$1,693,930 in funding from Proposition 1 (Counties with Distressed Basins and other Prop 1 for GSPs) for the completion of three GSPs and a Coordination Agreement. At that time the GSAs committed an additional \$893,774 as local cost share for a total estimated program cost of \$2,587,704.

The GSAs in the Subbasin are 13 months into work on our GSPs and we are making significant progress toward compliance with the GSP regulations and are on schedule to complete the plans by the required deadline. A few key milestones already completed, or nearing completion include:

- Subbasin-wide basin setting report including hydrogeologic conceptual model, water budget, characterization of groundwater flow conditions and assessment of each of the Sustainable Groundwater Management Action sustainability indicators in the subbasin
- Development of a subbasin-wide Data Management System
- Review, update and verification of the performance of a subbasin-wide numerical groundwater model
- Completion of our GSP Introduction chapters
- Ongoing work on other GSP chapters
- Broad acceptance of our sustainability goal and undesirable results definitions
- Agreement in concept on approach to developing sustainable management criteria
- We are receiving input from stakeholders during monthly advisory committee meetings as well as focused meetings to stakeholder groups in the subbasin
- We are advising each of our GSA Boards on progress at either monthly or bi-monthly GSA Board meetings.

- We are Coordinating our subbasin-wide efforts through a monthly Kaweah Subbasin Management Team Committee meeting composed of our GSA managers and select members of our individual technical advisory committees.

It is now apparent that we significantly underestimated the cost to complete several key plan elements due to the complexity of over-drafted basins and requirements of the GSP Emergency Regulations. This includes:

- Compilation, review, analysis and interpretation of data needed to inform the basin setting and water budget portions of each GSP
- Developing an acceptable water budget and water accounting framework
- Development of a data management system (DMS) for use in developing our plan and as a reporting tool for anticipated DWR required data deliverables, and
- The number of meetings required to effectively engage the stakeholders in the subbasin and then process and address public comments.

The GSA’s in the Kaweah Subbasin are now incurring charges more than \$400,000 above our budget estimates and funding allocation to complete the GSPs. We believe an additional \$300,000 may be required to complete the necessary meetings and address the large volume of comments we are anticipating based on how the public process is progressing up to this point. In total, we estimate we will need \$700,000 in additional funding to complete our GSPs. We are developing fee collection processes which will be included in our GSPs, but fee collection cannot commence until after the adoption of our plans. Once our fee collection mechanisms are established, we will be able to use this to further refine future GSPs, develop projects and meet our ultimate goal. We believe our GSA boards as well as Tulare County can provide an additional \$200,000 in local cost share, but that still leaves a deficit of \$500,000.

We understand that Proposition 68 has \$50M for GSP development and \$100M for GSP implementation related activities. We are requesting that priority be given to critically-overdrafted subbasins in the San Joaquin Valley when awarding the \$50M for plan development. Based on discussions with GSAs in other critically-overdrafted basins and subbasins we recognize that we are not alone in our cost overruns and that many if not all are experiencing cost overrun of similar magnitude. For this reason, we believe it may be necessary for DWR to reallocate a portion of the \$100M slated for implementation over to funding for development of GSPs.

In closing, the GSAs in the Kaweah Subbasin are in critical need of additional funding support to complete GSPs that will meet the requirements of the regulations. Our GSPs are successfully progressing and we are on track to complete them by the January 31, 2020 deadline if we can secure additional funding. We would appreciate meeting with you during March to explore the potential for receiving additional funding from DWR.

Sincerely,

J. Paul Hendrix

Agenda Item Report

March 7, 2019

Agenda Item 4.f.i: Outreach Presentation Planning

Report Author: J. Paul Hendrix

Background Discussion:

Staff has been working with Stantec, Mid-Kaweah's outreach coordinator, in scheduling presentations to civic clubs and for other public forums to further public awareness of the state's new groundwater management laws. This GSA's Speakers Bureau can draw from eight members of the Advisory Committee who have volunteered to deliver a pre-prepared presentation focusing on the importance of groundwater to the region and an overview of SGMA and its implementation. Attached is a listing of the various presentations being planned and scheduled in the near future.

Public outreach regarding SGMA and the contents of GSPs will be at a heightened pace between now and December 2019 when it is anticipated that the Board will adopt a Plan. However, continued outreach during the GSP's implementation phase, within which projects must be built and paid for and groundwater pumping rules will take shape, will likely be just as important as the basic SGMA briefings now occurring.

Tulare County League of Women Voters	11:30 AM 699 W Center Street Left of Center - Sue Sa	Maile Melkonian E: maile@melkonian.org T: 559-802-3315	April 16th, 11:30 a.m., Left of Center	TBD	At the presentation LWV would like an update on GSA formations/benchmarks to date, those coming up soon, and those that are planned for farther out. They want to know how MK is doing and how its shaping up/where Paul sees MK going in the future. Location needs reservations for the meeting. Can't take more than 45-50 people total. Need confirmed reservations for attendance by Friday April 14th for all of those looking to attend (perhaps add that info to the MK calendar when updating it?). Meetings are usually 45 minutes but they're flexible and have time for Q & A (be prepared for mid stream ?'s).
